

DC Arc Welding Inverter

Астана, Казахстан

Ronix RH-4604 is an inverter welding machine equipped with IGBT technology that helps your customers improve welding quality and penetration while lowering energy consumption and increasing efficiency. It is an excellent choice due to its unrivaled automated short circuit current protection and simple ignition, which results in reduced sparking and good corrosion surface performance. This power tool can be used with a 5mm MMA electrode. Overvoltage, heat, overcurrent, and overload protection are also included. Ronix RH-4604 can raise all welding inverter importers' wholesale business to another level. Just put this welding inverter for sale and see the results.

1. With professional cooling system
2. Fuji IGBT Technology
3. Actual 200Ah output current
4. Weight: 6.48 Kg
